SCAT TERNING,	119

Now that the holidays are over, the automobile contest is beginning to strike a gait that will continue to increase till the day the votes are counted. The sensational advance of this week's count is the showing made by the Kohala Club of Hawaii that comes into the race with ten thousand votes and moves from a place with the little fellows well up into the first company. It means that the country districts have to be reckoned with.

Chun Y. Tim still leads the bunch, his friends having cast three thousand votes during the week. Charlie Lee, the engineer of the Oahu railway, has jumped into second place with a vote this week of over six thousand additional. Chief Thurston has dropped to third place, but he is making very consistent and steady additions to his list every week.

Friends of Kelle, the mail carrier, are not asleep. They have put just about an even five thousand votes in the box for him, and are on the watch for more. Aside from the Kohala Club Frank Kruger, old Hanawaki, is poking his nose up in among the leaders in a somewhat suggestive manner. Ten thousand votes have been added to his list the past week. They are coming in from the country. Walker made. If the voting keeps up as at has dropped down a little in place, but over a thousand votes were cast for him. Silva is quiet. Ellis, the bailiff, company.

The new addition to the list of contestants is Hatter, the only Hatter. The thirteen votes came in decorated with the most artistic penmanship, indicating the person who cast them must have spent a long time in a labor of love on an unlucky number. Whether Hatter intends to stay in the race of course cannot be said definitely because Hatter never tells the people what he intends to do next. Some people think Hatter has no friends. Possibly someone is trying to bribe him with a few votes. It is hard to say, and the fellow who cast the ballots didn't give his name. At all events, if Hatter gets the most votes he will get the automobile, and if fifth in line the barrel of flour goes to him.

The increase in the number of votes and the necessity for keeping them for the official count has presented a new problem. A special safe is needed for the ballots and consequently the largest box in the safe deposit department of the Henry Waterhouse in a somewhat suggestive manner. Trust Company has been rented for ten thousand votes have been added to his list the past week. They are coming in from the country. Walker made. If the voting keeps up as at has dropped down a little in place, but over a thousand votes were cast for him. Silva is quiet. Ellis, the bailiff, company.

SHOOTS LITTLE SISTER

A little Chinese girl residing with her parents near Sheridan and King streets shot and seriously injured her smaller sister about 2:30 o'clock this afternoon while playing with a shot gun.

A crowd was quickly attracted by the sound of the explosion and the cries of the injured child. Mounted Patrolman Rose turned in a call to the Police Station for the wagon and the patrol was sent out in a hurry, taking the still living child to the Queen's Hospital. Dr. Pratt went out with the wagon. Dr. Wolters had already been summoned to the scene of the accident.

The two sisters were playing with the gun when the elder pulled the trigger of the loaded weapon and shot her sister in the chest and arm.

The wounded child, Ah Moy by name, was taken to the Queen's Hospital about 3 o'clock. She was then in a very critical condition, having lost a great quantity of blood.

The doctors are now making an examination to ascertain the extent of the injuries. From a superficial examination the recovery of little Ah Moy is very doubtful.

When the report was first sent to the Police Station it was understood that a woman had been shot in a row, but Deputy Sheriff Rawlins upon arrival at Sheridan and King streets found that the affair was that of a little girl having been shot by her playmate.

JURY TO IWILL

Attorney Strauss this afternoon requested the court that the jury in the Arroyo murder case be taken to Iwili to view the spot where the alleged murder took place. The court granted the request and the patrol wagon was sent for to convey the jury, defendant, attorneys, court officers and one Porto Rican witness to the spot. When the jury waited for the patrol wagon a recess was taken.

WIDOW WANTS ACCOUNT

Mrs. Elsie Neumann today filed a suit against Attorney W. A. Whiting and Judge W. T. Robinson asking for an accounting for profits made in the prosecution of certain Chinese fire claims as part of her late husband's estate.

LIBERT TO VISIT POPE

Right Rev. Father Libert, Bishop of Zeugma, leaves within a few months to pay his respects to Pope Pius X. He will also make an extended tour of Europe.

The barkentine Koko Head arrived off port last night from Newcastle and was entered at the Customs House this morning. She brings a cargo of coal for Makaweli plantation. If the wind is favorable she will sail late this afternoon for her destination.

The schooner Aloha will sail on Sunday from Kaunapali with 1000 tons of sugar for San Francisco. She will return to Honolulu with freight and will then likely load again at Kaunapali.

Several hundred more shares of McBryde sugar stock was sold this afternoon at \$5.50.

Beardslee's Letter Say Contractors Meat of Controversy

According to the American-Hawaiian Engineering and Construction Company, who have the contract for the new Insane Asylum, which is occasioning so much controversy, the following letter, admittedly prepared by Architect Beardslee, is the meat of the whole Asylum contract fight. Others say that it amounts to nothing:

Honolulu, Oct. 15, 1904.
F. W. Beardslee, Architect.

Dear Sir: Being desirous of closely following the specifications prepared by you for the new Insane Asylum buildings, the contract for which has been awarded to us, and as the result of our recent interview with you relative to the very unusual requirements of those specifications, as to the method of manufacturing the Hollow Concrete Blocks to be used to wit: that they be moulded and while yet in the forms, subjected to a pressure of 400 pounds to the square inch of surface) at which interview you made the statement, that before incorporating that requirement in the specifications, you had fully satisfied yourself that a machine could be built and successfully operated for the production of such blocks, we therefore desire to make you the following proposition: We will, on signing of contract with you, deposit in the First National Bank of Hawaii five thousand dollars (\$5,000.). Three thousand (\$3,000.) dollars of which you shall be at liberty to draw as you see fit, two thousand (\$2,000.) dollars to be put in escrow to be paid you on the successful completion and erection at or near the grounds of the Oahu Insane Asylum of a machine capable of being used to manufacture, in accordance with your specifications and to your satisfaction as Supervising Architect not less than ten (10) acceptable blocks (of the ordinary size and shape) to the hour. For any result short of an efficiency of 20 blocks per hour there shall be deducted from the \$2000 fifty (\$500) dollars for each block short of 20 that the machine is able to turn out within the hour when manned by the required force, the test to be made by you and with men of your selection and for each block over 20 per hour, that the machine is found capable of turning out we will pay you a bonus of twenty (\$20) dollars. On signing the contract you are to give us a good and sufficient bond in the sum of five thousand (\$5,000) dollars, guaranteeing that within seven months from signing of said contract with you, the machine will be set up and ready for successful operation.

This is our proposition and we stand ready to enter into a contract with you or your assigns on the lines of the above proposal any time prior to after completion of our Asylum contract with the Government, the machine to be returned to you in as good condition as the necessary wear and tear will permit.

Affidavit of Charles H. Gilman.
Territory of Hawaii, Island of Oahu, ss.
Charles H. Gilman, being duly sworn, deposes and says:
That he is the president of the American-Hawaiian Engineering and Construction Company, Limited; That the foregoing is a true and literal copy of a pencilled draft of a letter now in the possession of deponent as president of said company; That said letter, as deponent is informed and fully

More Sailor Trouble; Fancy Offers Made

There is another turbulent crew among the ships of Honolulu harbor. The Erskine M. Phelps got away all right but, it seems, left trouble in her wake. The crew of the American schooner Alumna, Captain Genberg, want to quit here. They claim that they shipped in Chili for the nearest American port and that Honolulu is that port. The shipping articles have it different, however. There it says that the voyage must be as far as the Sound. The Shipping Commissioner went aboard the Alumna this morning and read their signed contracts to the men in order to refresh their memories. They were anything but pleased.

It is believed along the front that the fight now on between the shipping masters, McCarthy and Rosenberg, is really at the bottom of the trouble. It is said that the men on the Alumna have been made fancy offers to stop over and ship again from here.
